I want to work for a company that...
Is trying to make a positive impact in the world

Work experience

Web Developer, Society of Professional Journalists ⓢ   Jan 2022 – Jun 2023 (1y 5m)

Membership nonprofit organization supporting journalists

`PHP` `React` `Adobe Creative Suite` `CSS` `HTML` `JavaScript` `ASP.NET` `REST API`

- Maintained and improved SPJ's websites, handled video editing, provided IT support, and performed administrative tasks.
- Utilized web graphic design, information architecture, and SEO/analytics techniques to enhance website performance.
- Revamped a large static website by migrating it to Drupal 9, integrating React widgets for seamless data feed integration.

UI/UX Designer, MyMediabox 🔲   Aug 2017 – Feb 2022 (4y 6m)

Premier Licensing Management Software
B2B

`React` `CSS` `HTML` `JavaScript` `C#` `.NET`

- Designed and implemented a cohesive, user-friendly interface for three internal IP licensing applications.
- Utilized C#.NET, Bootstrap, React, LESS, and various JavaScript frameworks and plugins to enhance functionality and create visually appealing designs.
- Developed and introduced a custom layout builder enabling users to easily create product advertisement landing pages.

Web Developer, TriComB2B ⌶   Feb 2017 – Aug 2017 (6m)

B2B website/media company
B2B

`PHP` `Adobe Creative Suite` `CSS` `HTML` `JavaScript` `JSON`

- Collaborated as a contractor to successfully build an enterprise Drupal 7 site.
- Created efficient internal tools for managing and storing large JSON data.
- Ensured high-quality coding standards by implementing JSlint practices.

Senior Developer, <u>Xurli</u> Xurli
<div align="right">Mar 2014 – Nov 2016 (2y 8m)</div>

Supporting small businesses with SEO and Map listings
B2B

`PHP` `CSS` `HTML` `JavaScript` `MySQL` `Laravel`

- Led front-end and back-end development for a start-up, improving SEO and online map listings for small businesses.
- Redesigned admin and client dashboards, ensuring consistency and valid code. Implemented source control and development server.
- Developed a Laravel PHP CRM and completed various subprojects for the CEO.

Web Developer, IBM IBM
<div align="right">Jan 2010 – Mar 2014 (4y 2m)</div>

`PHP` `CSS` `HTML` `JavaScript` `Java`

- Developed websites and portals for IBM clients using rapid HTML prototyping, UI/UX design, and custom development.
- Utilized proprietary markup languages and the Dojo JS framework to enhance website functionality.
- Created a custom WordPress plugin to streamline website management processes.
- Selected as the representative of the web development group to deliver presentations and showcase capabilities to potential clients.

Developer/Designer, <u>Freelance Web Development and Graphic Design</u>
<div align="right">Jan 2008 – Dec 2010 (2y 11m)</div>

`PHP` `Adobe Creative Suite` `CSS` `HTML` `JavaScript`

- Developed and designed websites using a range of programming languages such as HTML, CSS, JavaScript, PHP, and Flash
- Customized WordPress themes and functionalities to meet client requirements
- Successfully executed video format conversions and implemented scripting solutions
- Created impactful posters and logos that effectively communicated brand messages

Education

Saginaw Valley State University
<div align="right">Aug 2004 – Dec 2009 (5y 4m)</div>

Undergraduate Degree (3.7) Graphic Design
- Graduated with a minor in Communications

Snippets

Dashboard of Happy News 🔗 **dashboard.corbinrose.com**
I was depressed with all the negative news, so I started making a dashboard of positive news. Not all sources had an RSS feed, so for those websites, I scraped the page in PHP and created a JSON object to use instead, Considering switching this project to React in the future.

Hymnal App 🔗 **hymnal.corbinrose.com**
I built a hybrid mobile app via Cordova for my church's hymnal – with theme selector, font size adjustment, mp3 playback, and search functionality. Considering rebuilding in React Native

More about me

I want to work for a company that...

Is trying to make a positive impact in the world

The coolest side project I've built is...

A hybrid hymnal app for my church built with Cordova, and soon to be React Native

Outside of work I...

Am spending time with my wife, exploring the outdoors, and making puns

Interests

Music production, puns, video editing, hiking, public speaking, camp counseling
